The Nevada Ozone Inc.™ air treatment system is the perfect sales tool for Realtors and Property Management Companies. Many homes have indoor air quality issues that negatively affect the marketability and value of the home. How many times have you experienced the “kiss of death” when a prospective buyer walks into a client’s home and starts sneezing almost immediately, or comments unfavorably about the odors present in the house? How do you handle questions about the history of the home? Have there been any roof leaks? Has the house ever been flooded? Of course, physical damage and areas of water or moisture intrusion, such as a roof leaks, broken windows, etc. must be repaired by a licensed contractor; whereas, the Nevada Ozone Inc.™ system of air quality treatment takes care of the rest.

The Nevada Ozone Inc.™ air treatment system is an inexpensive disinfecting and sanitizing process that eliminates all of those potential deal-breakers. A single Nevada Ozone Inc.™ interior air treatment will fully sanitize and disinfect, deodorize and eradicate smoke odors, pet odors, dust mites, bedbugs, cockroaches, bacteria, viruses and all other kinds of vermin and pests that might be deeply imbedded in carpets, furniture, mattresses, behind walls, under sinks, in cabinets and in drawers.
